Acknowledgements

The Scientific Programme Committee and the NKVet are indebted to the Nordic Joint Committee for Agricultural Research (NKJ) who has made this Symposium and the printing and distribution of the Proceedings financially possible.

The Committee and the NKVet are also indebted to the Norwegian Veterinary Association (DNV) for hosting the NKVet Symposium "Prevention of Boar Taint in Pig Production" website during preparation and announcement of the symposium.

CONTENTS

The Boar Taint Problem

Moving towards taint-free pork – alternatives to surgical castration.....S1
By *K. Lundström* and *G. Zamaratskaia*

Piglet castration and EU animal welfare legislation..... S2
By *R. Horgan*

Animal Welfare Aspects of Preventing Boar Taint.....S3
By *M. Giersing*, *J. Ladewig* and *B. Forkman*

The consumers' view/reaction.....S4
By *C. Claudi-Magnussen*

Boar-taint related compounds

Boar taint related compounds: Androstenone/skatole/other substances.....S5
By *Ø. Andresen*

Preventing of boar taint in pig production. Factors affecting the level of skatole.....S6
By *B. Borg Jensen*

Factors affecting the level of androstenone.....S7
By *M. Bonneau*

Genetics/Selection

Possibilities for selection against boar taint.....S8
By *E.J. Squires*

Estimation of genetic parameters of boar taint;
skatole and androstenone and their correlations with sexual maturation.....S9
By *H. Tajet*, *Ø. Andresen* and *T.H.E. Meuwissen*

Non surgical methods to avoid boar taint

Vaccination against GnRH: pros and cons.....S10
By *S. Einarsson*

Sperm sorting and low-dose insemination in the pig – an update.....S11
By *P.O. Hofmo*

Castration: pain and analgesia

General anaesthesia, analgesia and pain associated with the castration of newborn piglets....S12
By *N. Jäggin*, *S. Gerber* and *U. Schatzmann*

Local anaesthesia for pigs subject to castration.....S13
By *B. Ranheim* and *H.A. Haga*

Sorting of carcasses

Sorting criteria. Methods for on-line/at-line sorting of entire male carcasses with emphasis on the Danish method based on skatole content.....S14
By *J. Rud Andersen*

The use of chemical sensor array technology, the electronic nose, for detection of boar taint...S15
By *J.E. Haugen*

National research programmes/policies

The Norwegian Research Programme for Entire Male Pig Production.....S16
By *B. Fredriksen* and *O. Nafstad*

Posters

The potential to detect boar tainted carcasses by using an electronic nose based on mass spectrometry.....P1
By *S. Ampuero* and *G. Bee*

Effects of finishing boars in mixed and single sex groups and split marketing on pig welfare....P2
By *L. Björklund* and *L.A. Boyle*

Artificial light programmes in entire male pig production – effects on androstenone, skatole and animal welfare.....P3
By *B. Fredriksen*, *O. Nafstad*, *B.M. Lium*, *C.H. Marka E. Dahl* and *J.U. Choinski*

Effects of surgical castration on the behaviour and physiological response of weaned pigs.....P4
By *S. Llamas Moya*, *L.A. Boyle*, *P.B. Lynch* and *S. Arkins*

Early and reliable detection of boar taint and its genetic predisposition.....P5
By *G. Nijs*, *F.A.M. Tuytens*, *S. Miller*, *M.J. Van Oeckel*, *N. Warnants*, *D.L De Brabander* and *B. Sonck*

Selection against boar taint: a simulation study.....P6
By *Dorothe Ducro-Sterink*
