

BIOTECH & BIOMATERIALS RESEARCH TO REDUCE THE CARIES EPIDEMIC

An interdisciplinary workshop to develop a research agenda that will leverage new discoveries and lead to innovative approaches to the prevention of dental caries.

University Towers Hotel, Seattle, WA USA, June 13-15, 2005

Editors of supplement:

Rebecca L Slayton, Department of Pediatric Dentistry, University of Washington
James D Bryers, Department of Bioengineering and University of Washington
Engineered Biomaterials (UWEB) Center, University of Washington
Peter Milgrom, Department of Dental Public Health Sciences, University of
Washington

Supplement type: Proceedings

Article type: Proceedings

Purpose:

The purpose of this conference was to develop a research agenda that will leverage new discoveries and lead to innovative approaches to reduce caries in high risk populations. An esteemed group of internationally recognized scientists representing cariology, behavioral sciences, bioengineering and microbiology were invited to present research on topics aimed at understanding the complexities of this multifactorial disease. Emphasis was placed on the development of interdisciplinary collaboration between dentistry and bioengineering.

Organizing Committee:

Peter Milgrom, DDS – Principal Investigator
Director, UW Northwest/Alaska Center to Reduce Oral Health Disparities
Professor, Department of Dental Public Health Sciences
University of Washington School of Dentistry
Box 357475, 1959 NE Pacific St., Seattle, WA 98195

Email: dfrc@u.washington.edu

Rebecca L. Slayton, DDS, PhD
Graduate Program Director
Department of Pediatric Dentistry
University of Washington School of Dentistry
Box 357136, 1959 NE Pacific St., Seattle, WA 98195
Email: rslayton@u.washington.edu

James D. Bryers, PhD
Professor, Department of Bioengineering and University of Washington
Engineered Biomaterials (UWEB) Center
University of Washington
Box 351720; 1705 NE Pacific Street, Seattle, WA 98195
Email: jbryers@u.washington.edu

Acknowledgements:

The organizing committee would like to thank Virginia Lynn, Jackie Stein, Justin Coyne and Mary Beth Cunningham for their assistance in the planning of this conference and to Mary Martin for her careful text editing of the manuscripts.

This conference was supported by NIH/NIDCR grant R13DE015798-01 and by the Whitaker Foundation. The organizing committee recognizes the participation of Drs. Eleni Kousvelari and Ruth Nowjack-Raymer from NIDCR in conceptualizing the conference. Additional financial support was provided by generous donations from Danisco Sweeteners, Colgate-Palmolive Co., and Kerr Corporation.

Conference Participants

Per Axelsson, DDS, PhD

Professor, Preventive Dentistry, Karlstad, Sweden

Joel Berg, DDS, MS

Professor and Lloyd and Kay Chapman Chair for Oral Health, Department of Pediatric Dentistry, University of Washington and President, American Academy of Pediatric Dentistry Foundation

James D. Bryers, PhD

Professor, Department of Bioengineering and University of Washington
Engineered Biomaterials (UWEB) Center, University of Washington

John O. Cisar, PhD

Microbial Receptors Unit, OIIB
Lab of Microbial Ecology, National Institutes of Health/NIDCR

Beverly Dale-Crunk, PhD

Scientific Director - UW Comprehensive Oral Health Research Center
Department of Oral Biology, University of Washington

Burton Edelstein, DDS, MPH

Professor and Chair of Social and Behavioral Sciences at Columbia University,
Director of the Children's Dental Health Project

Christopher J. Elias, MD, MPH

President, Program for Appropriate Technology in Health (PATH)

John Featherstone, MSc, PhD

Professor and Chair, Department of Preventive and Restorative Dentistry,
University of California San Francisco

Vincent Fischetti, PhD

Professor, Dept of Bacterial Pathogenesis and Immunology,
Co-Head, Laboratory of Bacterial Pathogenesis and Immunology
The Rockefeller University

Asuman Kiyak, PhD

Professor, Oral & Maxillofacial Surgery and Director, Institute on Aging,
University of Washington

Eleni Kousvelari, DDS, DSci

Acting Director, Center of Biotechnology and Innovation, NIDCR

Howard Kuramitsu, PhD

UB Distinguished Professor Emeritus, Department of Oral Biology,
State University of New York at Buffalo

Philip Marsh, BSc, PhD

Professor & Chair Oral Microbiology Research Group
Centre for Applied Microbiology & Research, Salisbury, UK

Phillip Messersmith, PhD

Associate Professor of Biomedical Engineering, Northwestern University

Peter Milgrom, DDS

Director, UW Northwest/Alaska Center to Reduce Oral Health Disparities

Pierre Mourad, PhD

Principal Physicist, Applied Physics Laboratory, and Research Associate Professor, Department of Neurological Surgery, University of Washington School of Medicine

Donald Patrick, PhD, MSPH

Professor and Director of Social and Behavioral Sciences, Department of Health Services; Director Center for Disability Policy and Research, and Director, Seattle Quality of Life Group, University of Washington

B.D. Ratner, PhD, Reactor

Professor, Bioengineering and Chemical Engineering
Director, UWEB

Michael L. and Myrna Darland Endowed Chair in Technology Commercialization, University of Washington

Danielle R. Reed, PhD

Associate Member, Monell Chemical Senses Center, Philadelphia, PA

David Stahl, PhD

Professor of Civil and Environmental Engineering, and Head of the Salivary Diagnostics Project, University of Washington

Clemencia Vargas, DDS, PhD

Assistant Professor, Program of Pediatric Dentistry, Department of Health Promotion and Policy, Dental School, University of Maryland

Philip Weinstein, PhD

Professor, Depts. of Dental Public Health Sciences and Pediatric Dentistry, University of Washington

Dominic Zero, DDS, MS

Professor and Chair, Department of Community and Preventive Dentistry, Indiana University, Oral Health Research Institute
