Danish Society for Emergency Medicine: Research Symposium 2009
Copenhagen, Denmark
26 April 2009

Edited by Mikkel Brabrand, Peter Hallas and Kjetil G Ringdal

www.sjtrem.com/content/17/S2

O1 Incidence of penetrating trauma in Copenhagen from 2000 to 2007

Kamilia S. Funder *et al.*

O2 Microfinance in emergency medicine research or how much research can you get for 500 Dkr?

Peter Hallas *et al.*

O3 Early identification of patients at risk of deterioration in a surgical ward

Charlotte Paltved *et al.*

P1 End-tidal CO₂ in mechanical versus conventional CPR

Martin Bille Henriksen *et al.*

P2 Cutting costs – the impact of price-lists on the cost development in the emergency department

Ulf Martin Schilling

P3 The acute effect of a physiological bolus of growth hormone (GH) on insulin signalling pathways in striated muscle in healthy volunteers

Thomas Krusenstjerna-Hafstrøm *et al.*

P4 GCS in the prehospital setting is an adequate predictor of outcome in comatose patients

Marlene Kanstrup Dahl *et al.*

P5 Outcome and non-chemotherapeutic treatment in pleural empyema

Jannie Nielsen

P6 Cerebral net exchange of Brain-Derived Neurotrophic Factor (BDNF) during experimental systemic inflammation and hypoxaemia in humans

Ronan M. G. Berg *et al.*

P7 Pulse steroid therapy in acute airway obstruction in relapsing polychondritis

Sheraz Butt and Fareena Mirza

P8 Does cardio-pulmonary resuscitation influence perception of time?

Susanne Hosbond *et al.*

P9 Is this admission really relevant?

Lars Folkestad and Mikkel Brabrand

P10 Prehospital evaluation of patients with chronic obstructive pulmonary disease

Mikkel Christensen *et al.*

P11 Therapeutic hypothermia after cardiac arrest – a survey of the use in Denmark

Mikkel Brabrand and Nicola Groes Clausen

P12 Junior doctors can cooperate in the Acute Admission Department

Dan Brun Petersen

P13 Clinical signs of bacterial meningitis at admission

Rasmus Køster-Rasmussen *et al.*

P14 Admission diagnosis and timing of lumbar puncture in bacterial meningitis

Rasmus Køster-Rasmussen and Christian N Meyer

P15 Strategies for implementation of public access defibrillation in residential areas: a community based study

Fredrik Folke *et al.*

P16 Optimizing treatment of acute patients in a Danish Emergency Department

Maria Søre Mattsson

Editor-in-Chief
Hans-Morten Lossius

SJTREM is an open access, peer-reviewed online journal that encompasses all aspects of the epidemiology, etiology, pathophysiology, diagnosis, treatment, rehabilitation and prevention of acute illnesses and trauma, with particular interest in the multidisciplinary aspects of the chain of survival. *SJTREM*'s (ISSN 1757-7241) articles are archived in PubMed Central, the US National Library of Medicine's full-text repository of life science literature, INIST and e-Depot.
