Open Access Gastroenterology and Nutrition Journals

BioMed Central publishes a collection of peer-reviewed, open access journals, many of which publish content related to gastroenterology and nutrition. All journals are included in PubMed. For further details on any journal below, plus a full list of Editorial Board members, please visit the journal's website.

BMC Gastroenterology

www.biomedcentral.com/bmcgastroenterol
editorial@biomedcentral.com
Impact Factor: 2.47

BMC Gastroenterology is an open access, peer-reviewed journal that considers articles on all aspects of the prevention, diagnosis and management of gastrointestinal and hepatobiliary disorders, as well as related molecular genetics, pathophysiology, and epidemiology.

BMC Gastroenterology is indexed by PubMed, MEDLINE, CAS, Scopus, EMBASE, Current Contents, CABI, Thomson Reuters (ISI) and Google Scholar.

Nutrition & Metabolism

www.nutritionandmetabolism.com
nutritionandmetabolism@downstate.edu
Editor-in-Chief: Mahmood Hussain (USA)
Impact Factor: 2.35

Nutrition & Metabolism publishes content focused on the integration of nutrition, exercise physiology, clinical investigations, and molecular and cellular biochemistry of metabolism.

Nutrition & Metabolism is indexed by PubMed, PubMed Central, Thomson Reuters (ISI), CABI, CAS, Cinahl, FSTA, Scopus, EMBASE, Current Contents, Google Scholar and Agricola.

NUTRITION JOURNAL

www.nutritionj.com
nutritionj@biomedcentral.com
Editor-in-Chief: Nehme Gabriel (USA)
Impact Factor: 2.56

Nutrition Journal is an open access, peer-reviewed, online journal that considers manuscripts within the field of human nutrition. The journal aims to encourage scientists and physicians of all fields to publish results that challenge current models, tenets or dogmas.

Nutrition Journal is indexed by PubMed, PubMed Central, MEDLINE, CAS, Embase, Scopus and Google Scholar.

LIPIDS IN HEALTH AND DISEASE

www.lipidworld.com
undurti@lipidworld.com
Editor-in-Chief: Undurti N Das (USA)
Impact Factor: 2.24

Lipids in Health and Disease is an open access, peer-reviewed, online journal that publishes articles on all aspects of lipids: their biochemistry, pharmacology, toxicology, role in health and disease, and the synthesis of new lipid compounds.

Lipids in Health and Disease is indexed by PubMed, PubMed Central, MEDLINE, Thomson Reuters (ISI), CABI, CAS, FSTA, EMBASE, Scopus and Google Scholar.

BMC Research Notes

www.biomedcentral.com/bmcresnotes
editorial@biomedcentral.com

BMC Research Notes is an open access journal publishing scientifically sound research across all fields of biology and medicine, enabling authors to publish data sets, small-scale clinical studies, reports of confirmatory or negative results, updates to previous research, methodology, software tools and databases, short correspondence items and hypotheses.

BMC Research Notes is indexed by PubMed, Scopus and Google Scholar.

COMPARATIVE HEPATOLOGY

www.comparative-hepatology.com

chepatol@icbas.up.pt

Editor-in-Chief: Eduardo Rocha (Portugal)

Comparative Hepatology publishes basic and applied studies, in biology, veterinary and human medicine.

Comparative Hepatology is indexed by PubMed, PubMed Central, CAS, EMBASE, Scopus and Google Scholar.

INTERNATIONAL JOURNAL OF BEHAVIORAL NUTRITION AND PHYSICAL ACTIVITY

www.ijbnpa.org

IJBNPA@erasmusmc.nl

Editors-in-Chief: Robert Jeffery (USA), Frank van Lenthe (Netherlands), Bente Wold (Norway)

Impact Factor: 3.17

The International Journal of Behavioral Nutrition and Physical Activity (IJBNPA), the official journal of the International Society of Behavioral Nutrition and Physical Activity, is an open access, peer-reviewed online journal devoted to furthering the understanding of the behavioural aspects of diet and physical activity.

IJBNPA is indexed by PubMed, PubMed Central, Thomson Reuters (ISI), CABI, Cinahl, EMBASE, FSTA, Scopus, PsycINFO, EmCare, Index Copernicus, SOCOLAR and Google Scholar.

journal of the international society of sports nutrition

www.jissn.com

ja839@nova.edu

Editors-in-Chief: Jose Antonio (USA), Douglas S. Kalman (USA), Richard B. Kreider (USA)

Impact Factor: 2.68

Journal of the International Society of Sports Nutrition (JISSN), the official journal of the International Society of Sports Nutrition (ISSN), is an open access, online, peer-reviewed journal that focuses on the acute and chronic effects of sports nutrition and supplementation strategies on body composition, physical performance and metabolism.

JISSN is indexed by PubMed, PubMed Central, CAS, CABI, Food Science and Technology Abstracts, Embase, Scopus and Google Scholar.

Gut Pathogens

www.gutpathogens.com

gut.pathogens@gmail.com

Editors-in-Chief: Niyaz Ahmed (India), Francis Megraud (France), Leonardo Sechi (Italy)

Gut Pathogens, the official journal of The International Society for Genomic and Evolutionary Microbiology (ISOGEM), is an open access, peer-reviewed online journal encompassing all aspects of the biology and pathogenesis of bacterial, parasitic and viral infections of the gut, including their diagnosis and clinical management.

Gut Pathogens is indexed by PubMed, PubMed Central, EMBASE, Scopus, CAS and Google Scholar.

Fibrogenesis & Tissue Repair

www.fibrogenesis.com

editorial@fibrogenesis.com

Editor-in-Chief: Massimo Pinzani (Italy)

Fibrogenesis & Tissue Repair is an open access, peer-reviewed online journal featuring high-quality studies providing novel insights into the mechanisms, diagnosis and treatment of human diseases characterized by chronic wound healing and fibrogenesis.

Fibrogenesis & Tissue Repair is indexed by PubMed, PubMed Central, Scopus and Google Scholar.

Flavour

www.flavourjournal.com

editorial@flavourjournal.com

Editors-in-Chief: Peter Barham (UK) and Per Møller (Denmark)

Flavour is a new interdisciplinary, peer-reviewed journal covering the psychophysical, psychological and chemical aspects of eating food, as mediated through all the senses. *Flavour* seeks to create a shared forum for the publication of evidence-based research in an open access context that will make it accessible not only to researchers but also the wider community of chefs, policy makers and the public. *Flavour* is now accepting submissions and will launch early in 2012.

THE BENEFITS OF PUBLISHING IN BIOMED CENTRAL'S JOURNALS:

OPEN ACCESS

Access to the research published in our journals is free (not only on the journal's website but also via PubMed Central, the National Institutes of Health's electronic archive of full text articles, UK PubMed Central and other national archives), which means anyone with Internet access can read your research.

HIGH VISIBILITY

Research articles are freely available to the entire global scientific and medical communities. Average full-text downloads are 250 per article per month.

INCLUDED IN PUBMED

All research articles published in BioMed Central's journals are included in PubMed, so your work can be found and cited by researchers and clinicians around the world.

YOU RETAIN COPYRIGHT

This means you can freely post your article on your personal or institutional homepage and e-mail it to friends and colleagues.

PUBLISHED QUICKLY

Online submission and peer review makes the whole process of publishing your research simple and efficient. Articles are published rapidly upon acceptance.

NO SPACE CONSTRAINTS

Publishing online means unlimited space for figures, extensive data and video footage.

GET YOUR ARTICLE PROMOTED

When appropriate, articles are promoted by e-mailing selected groups of researchers working in the same field or by informing the general and/or scientific press.
