

Open Access

# Allergy, Immunology and Pulmonary Medicine Journals

## Open access Allergy, Immunology and Pulmonary Medicine Journals

BioMed Central publishes a collection of peer-reviewed, open access journals, many of which publish content related to allergy, immunology and pulmonary medicine. All journals are included in PubMed. For further details on any journal below, plus a full list of Editorial Board members, please visit the journal's website.

### RESPIRATORY RESEARCH

<http://respiratory-research.com>

[respiratory-research@biomedcentral.com](mailto:respiratory-research@biomedcentral.com)

**Editors-in-Chief: Jan Lötvald (Sweden),  
Reynold A Panettieri Jr (USA)**

Impact Factor: 2.86

*Respiratory Research* is an open access journal aiming at publishing high-quality science in all areas of respiratory disease. Topics of interest include asthma, chronic obstructive pulmonary disease, cystic fibrosis, genetics, infectious diseases, interstitial lung diseases, lung development, lung tumors, occupational and environmental factors, pulmonary circulation, pulmonary pharmacology and therapeutics, respiratory immunology, respiratory physiology, and sleep-related respiratory problems.

*Respiratory Research* is indexed by CABI, CAS, Current Contents, EMBASE, Google Scholar, MEDLINE, PubMed, PubMed Central, Scopus and Thomson Reuters (ISI).

### ALLERGY, ASTHMA & CLINICAL IMMUNOLOGY

[www.aacijournal.com](http://www.aacijournal.com)

[editorial@aacijournal.com](mailto:editorial@aacijournal.com)

**Editor-in-Chief: Richard Warrington  
(Canada)**

*Allergy, Asthma & Clinical Immunology (AACI)* is the official journal of the *Canadian Society of Allergy and Clinical Immunology (CSACI)*. AACI reports on basic research and clinically applied studies in the following topics: asthma and occupational lung disease, rhinoconjunctivitis and rhinosinusitis, drug hypersensitivity, allergic skin diseases, urticaria and angioedema, venom hypersensitivity, anaphylaxis and food allergy, immunotherapy, immune modulators and biologics, immune deficiency and autoimmunity, T cell and B cell functions, regulatory T cells, natural killer cells, mast cell and eosinophil functions, complement abnormalities.

AACI is indexed by PubMed, PubMed Central, CAS, EMBASE, Scopus, FSTA and Google Scholar.

### Clinical and Translational Allergy

[www.ctajournal.com](http://www.ctajournal.com)

[editorial@ctajournal.com](mailto:editorial@ctajournal.com)

**Editor-in-Chief: Jan Lötvald (Sweden)**

*Clinical and Translational Allergy* is one of several journals in the portfolio of the European Academy of Allergy and Clinical Immunology, and is one of the first open access journals in this field. *Clinical and Translational Allergy* publishes original research articles and reviews, as well as EAACI position articles, EAACI Task Force Reports and EAACI guidelines.

*Clinical and Translation Allergy* is indexed by PubMed, PubMed Central and Google Scholar.

## BMC Pulmonary Medicine

[www.biomedcentral.com/bmcpulmed](http://www.biomedcentral.com/bmcpulmed)

editorial@biomedcentral.com

Unofficial Impact Factor: 1.91

*BMC Pulmonary Medicine* is an open access journal publishing original peer-reviewed research articles in all aspects of the prevention, diagnosis and management of pulmonary and associated disorders, as well as related molecular genetics, pathophysiology, and epidemiology.

*BMC Pulmonary Medicine* is indexed by PubMed, MEDLINE, CAS, EMBASE, Scopus, CABI and Google Scholar.

## CLINICAL AND MOLECULAR ALLERGY

[www.clinicalmolecularallergy.com](http://www.clinicalmolecularallergy.com)

allergy@etsu.edu

**Editors-in-Chief: David S. Chi (USA),  
Guha Krishnaswamy (USA)**

Unofficial Impact Factor: 1.52

*Clinical and Molecular Allergy* publishes research on all clinical and molecular aspects of allergic (Type 1 hypersensitivity) and primary immunodeficiency disorders (diseases that alter host defense but are not related to Human Immunodeficiency Virus infection). Studies of allergic or hypersensitive aspects of HIV infection/AIDS or drug desensitization protocols in AIDS, however, fall into the journals scope.

*Clinical and Molecular Allergy* is indexed by CABI, CAS, EMBASE, PubMed, PubMed Central and Scopus.

## Cough

[www.coughjournal.com](http://www.coughjournal.com)

cougheditors@gmail.com

**Editors-in-Chief: Brendan Canning  
(USA), Kian Fan Chung (UK), Lorcan  
McGarvey (UK)**

Unofficial Impact Factor: 1.14

*Cough* is an open access, peer-reviewed, online journal encompassing the scientific and clinical aspects of both acute and chronic cough.

*Cough* is indexed by CABI, Google Scholar, PubMed, PubMed Central, and Scopus.

## JOURNAL OF INFLAMMATION

[www.journal-inflammation.com](http://www.journal-inflammation.com)

editorial@journal-inflammation.com

**Editors-in-Chief: Paul Kirkham (UK),  
Dennis Taub (USA)**

Impact Factor: 2.02

*Journal of Inflammation* covers all aspects of inflammation research including molecular, cellular, animal and clinical studies, and related aspects of pharmacology, such as anti-inflammatory drug development, trials and therapeutic developments. It also considers publication of negative findings.

*Journal of Inflammation* is indexed by BIOSIS, CABI, CAS, Current contents, EMBASE, EMBiology, PubMed, PubMed Central, Scopus and Thomson Reuters (ISI).

## IMMUNITY & AGEING

[www.immunityageing.com](http://www.immunityageing.com)

[immunity\\_ageing@unipa.it](mailto:immunity_ageing@unipa.it)

**Editor-in-Chief: Calogero Caruso (Italy)**

Impact Factor: 3.00

*Immunity & Ageing* is an open access, peer-reviewed, online journal that considers manuscripts on all aspects of ageing examined from an immunological point of view. Over the last few years, journals oriented towards gerontology and geriatric sciences have been accepting an increasing number of articles dealing with immunology of ageing, but a specialised journal in this area does not exist. *Immunity & Ageing* will be an opportunity to focus on this topic, which is emerging as one of the critical mechanisms in ageing.

*Immunity & Ageing* is indexed by PubMed, PubMed Central, CAS, EMBASE, Scopus and Google Scholar.

## JOURNAL OF IMMUNE BASED THERAPIES AND VACCINES

[www.jibtherapies.com](http://www.jibtherapies.com)

[rwmalonemd@gmail.com](mailto:rwmalonemd@gmail.com)

**Editor-in-Chief: Robert Malone (USA)**

*Journal of Immune Based Therapies and Vaccines (JIBTV)* is an open access, peer-reviewed, online journal dedicated to all aspects of therapeutic and prophylactic applications of immunology. *JIBTV* aims to advance the understanding and application of specific immunological mechanisms, the role of antigens and antigenic epitopes in eliciting biological responses, immune correlates of protection and activity, strategic regulatory and clinical development considerations, adjuvants, formulations, delivery and devices, and other issues and findings relating to accelerating the discovery and advanced development through licensure, distribution and use of efficacious vaccines and immune based therapies (IBTs). The areas of vaccines and IBTs encompass many different disciplines, including infectious diseases, transplantation, cancer, allergic disorders, and autoimmune diseases.

*JIBTV* is indexed by CAS, EMBASE, PubMed, PubMed Central and Scopus.

## JOURNAL OF NEUROINFLAMMATION

[www.jneuroinflammation.com](http://www.jneuroinflammation.com)

[editorial@jneuroinflammation.com](mailto:editorial@jneuroinflammation.com)

**Editors-in-Chief: Sue Griffin (USA),  
Robert Mrak (USA)**

Impact Factor: 5.79

*Journal of Neuroinflammation* is an open access, peer-reviewed online journal that focuses on innate immunological responses of the nervous system, involving microglia, astrocytes, cytokines, chemokines, and related molecular processes. Neuroinflammation incorporates a wide spectrum of complex cellular responses that include microglia and astrocytes, cytokines and chemokines, complement proteins, acute phase proteins, oxidative injury, and related molecular processes. *Journal of Neuroinflammation* will bring together work focusing on common pathogenic processes, and provide a forum for integrative reviews and commentaries on this field.

*Journal of Neuroinflammation* is indexed by BIOSIS, CABI, CAS, EMBASE, MEDLINE, Medscape, PubMed, PubMed Central, Scopus and Thomson Reuters (ISI).

## BMC Immunology

[www.biomedcentral.com/bcimmunol](http://www.biomedcentral.com/bcimmunol)  
editorial@biomedcentral.com  
Impact Factor: 3.00

*BMC Immunology* is an open access journal publishing original peer-reviewed research articles in molecular, cellular, tissue-level, organismal, functional, and developmental aspects of the immune system as well as clinical studies and animal models of human diseases.

*BMC Immunology* is indexed by PubMed, MEDLINE, BIOSIS, CAS, EMBASE, Scopus, CABI, Thomson Reuters (ISI) and Google Scholar.

## BMC Medicine

[www.biomedcentral.com/bmcmed](http://www.biomedcentral.com/bmcmed)  
editorial@biomedcentral.com  
Impact Factor: 5.75

*BMC Medicine* - the flagship medical journal of the BMC series - publishes original research articles, commentaries and reviews in all areas of medical science and clinical practice. To be appropriate for BMC Medicine, articles need to be of outstanding quality, broad interest and special importance.

*BMC Medicine* is indexed by PubMed, MEDLINE, BIOSIS, CAS, EMBASE, Scopus, Current Contents, Thomson Reuters (ISI) and Google Scholar.

## *Fibrogenesis & Tissue Repair*

[www.fibrogenesis.com](http://www.fibrogenesis.com)  
editorial@fibrogenesis.com  
**Editor-in-Chief: Massimo Pinzani (Italy)**

*Fibrogenesis & Tissue Repair* focuses on the discovery and characterization of the mechanisms of fibrogenesis and tissue repair, covering five major areas of fibroproliferative disorders: gastrointestinal and liver disease; renal disease; rheumatology and connective tissue disease; pulmonary disease and cardiovascular disease. Particular emphasis is given to studies leading to a significant advancement in the fields of genetic predisposition, diagnostic biomarkers and drug discovery. *Fibrogenesis & Tissue Repair* aims to help fill the gap in communication that exists between scientists working in different subspecialties of experimental and clinical medicine and to allow them to rapidly exchange ideas and work on common targets.

*Fibrogenesis & Tissue Repair* is indexed by Google Scholar, PubMed, PubMed Central and Scopus.

BMC

Ear, Nose & Throat Disorders

[www.biomedcentral.com/  
bmcear\\_nose\\_throat\\_disord](http://www.biomedcentral.com/bmcear_nose_throat_disorders)  
editorial@biomedcentral.com

*BMC Ear, Nose and Throat Disorders* is an open access journal publishing original peer-reviewed research articles in all aspects of the prevention, diagnosis and management of ear, nose and throat disorders, as well as related molecular genetics, pathophysiology, and epidemiology.

*BMC Ear, Nose and Throat Disorders* is indexed by PubMed, CAS, EMBASE, Scopus and Google Scholar.

arthritis  
research&therapy

<http://arthritis-research.com>  
editorial@arthritis-research.com

**Editors-in-Chief: Peter Lipsky (USA),  
Ravinder Maini (UK)**

Impact Factor: 4.36

*Arthritis Research & Therapy* is an international, peer-reviewed online journal, publishing original research, reviews, commentaries and reports. The major focus of the journal is on cellular and molecular mechanisms of arthritis, musculoskeletal conditions and systemic autoimmune rheumatic diseases and translation of this knowledge into advances in clinical care. Original basic, translational laboratory and clinical research is considered for publication along with results of therapeutic trials.

*Arthritis Research & Therapy* is indexed by EMBASE, MEDLINE, PubMed, PubMed Central, Scopus and Thomson Reuters (ISI).

BMC

Research Notes

[www.biomedcentral.com/bmcresnotes](http://www.biomedcentral.com/bmcresnotes)  
editorial@biomedcentral.com

*BMC Research Notes* is an open access journal publishing scientifically sound research across all fields of biology and medicine, enabling authors to publish updates to previous research, software tools and databases, data sets, small-scale clinical studies, and reports of confirmatory or 'negative' results. Additionally the journal welcomes descriptions of incremental improvements to methods as well as short correspondence items and hypotheses.

*BMC Research Notes* is indexed by PubMed, Scopus and Google Scholar.

# THE BENEFITS OF PUBLISHING IN BIOMED CENTRAL'S JOURNALS:

## OPEN ACCESS

Access to the research published in our journals is free (not only on the journal's website but also via PubMed Central, the National Institutes of Health's electronic archive of full text articles, UK PubMed Central and other national archives), which means anyone with Internet access can read your research.

## HIGH VISIBILITY

Research articles are freely available to the entire global scientific and medical communities. Average full-text downloads are 250 per article per month.

## INCLUDED IN PUBMED

All research articles published in BioMed Central's journals are included in PubMed, so your work can be found and cited by researchers and clinicians around the world.

## YOU RETAIN COPYRIGHT

This means you can freely post your article on your personal or institutional homepage and e-mail it to friends and colleagues.

## PUBLISHED QUICKLY

Online submission and peer review makes the whole process of publishing your research simple and efficient. Articles are published rapidly upon acceptance.

## NO SPACE CONSTRAINTS

Publishing online means unlimited space for figures, extensive data and video footage.

## GET YOUR ARTICLE PROMOTED

When appropriate, articles are promoted by e-mailing selected groups of researchers working in the same field or by informing the general and/or scientific press.

The screenshot shows the BioMed Central Respiratory Gateway homepage. At the top, there is a navigation menu with links for Home, Journals A-Z, Published items, Advanced search, Authors, Reviewers, Libraries, About, and my BioMed Central. Below the menu is a 'Quick Search' box. The main content area is titled 'Respiratory Gateway' and includes a welcome message, a 'Research highlights' section with three article teasers, and a 'Latest research articles' section with two article teasers. Each article teaser includes a small image, a title, authors, and a brief summary.
