Reviewer's report

Title: Metabotropic glutamate receptor 5: a candidate in psychiatric pathology? Implications for novel mGluR5-based therapeutics

Version: 2  Date: 8 January 2014

Reviewer: Abraham AW Weizman

Reviewer's report:

A few notes:
I suggest to use the term "Fragile X syndrome" rather than just "Fragile X" (p. 11, 2nd par.).
Reference 2 in the Reference List is incorrect. It should be:

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
No competing interests to declare.
