Reviewer's report

Title: Changes in neuronal activation patterns in response to androgen deprivation therapy: A Pilot study.

Version: 2 Date: 22 October 2009

Reviewer: Shabbir MH Alibhai

Reviewer's report:

The authors have done an excellent and very thoughtful job of responding to reviewers' comments. I have no further revisions to suggest. The manuscript is quite acceptable and very interesting. It will add to the field.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
