Reviewer's report

Title: Sleep Duration, Vital Exhaustion and Odds of Spontaneous Preterm Birth: A Case-Control Study

Version: 2 Date: 12 August 2014

Reviewer: Ishag Adam

Reviewer's report:

Major
Authors need to explore other important factors for preterm labour throughout the paper e.g., history of preterm labour, short interpregnancy interval, anemia etc. Statistic section needs to be summarized

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
