Author's response to reviews:

Dear Editor

Thank you again for the helpful review process - which has allowed us to significantly improve this article.

In response to the two editorial queries:

1) The Quitline monthly call data and NRT voucher data are public domain (published in a regular Quitline Newsletter and sometimes in an electronic newsletter "Tobacco Update"). In the first sentence of the Methods we have added the words in parentheses at the end of the following sentence:

Data sources: The Quitline routinely collects data on caller registrations and data on the distribution of NRT vouchers (and makes the information on the total number of calls and vouchers dispensed publicly available).

2) As requested a conclusion section has also been added to the revised article.

Thank you for considering this revised article.

Kind regards

Nick Wilson
