Reviewer's report

**Title:** Aqueous cinnamon extract (ACE-c) from the bark of Cinnamomum cassia causes apoptosis in human cervical cancer cell line (SiHa) through loss of Mitochondrial Membrane Potential

**Version:** 1 **Date:** 27 January 2010

**Reviewer:** Amitava Chatterjee

**Reviewer's report:**

I have gone through the article very carefully and find the article entitled,"Aqueous cinnamon extract (ACE-c) from the bark of Cinnamomum cassia causes apoptosis in human cervical cancer cell line (SiHa) through loss of Mitochondrial Membrane Potential" by Soumya J Koppikar et al. I found the article has some new informations and experiments are well done. Though authors may do better and more experiments but in its present form the manuscript may be acceptable after major revisions mainly in its style and language.
