Author's response to reviews:

Thank you for your initial review of our manuscript. The changes I have made are as follows:

1) I added the email addresses of all authors to the title page
2) I added an Authors' Contributions section before the Acknowledgments section of our manuscript
3) I added line numbers to the main text of our manuscript
4) I included the names of the ethics committees that approved our study

Please let me know of any additional changes that should be made. Thank you again for your time.

Best,

Sandhya Kajeepeta
