

## **Reviewer's report**

**Title:** Rapid Assessment of Injection practices in Cambodia, 2002

**Version:** 4 **Date:** 16 May 2005

**Reviewer:** Lone Simonsen

### **Reviewer's report:**

General

I reviewed the cover letter and revised manuscript this morning. It appears all of my comments and criticisms were acknowledged and satisfactorily addressed and answered all of my concerns.

In my opinion, this paper is now ready for publication in BMC public health with no further revision.

Thank you for letting me review this interesting paper.

-----  
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----  
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----  
Discretionary Revisions (which the author can choose to ignore)
