Title: Searching for observational studies: what does citation tracking add to Pub Med? A case study in depression and coronary heart disease

Authors:

Hannah Kuper (hannah.kuper@lshtm.ac.uk)

Amanda Nicholson (amandan@public-health.ucl.ac.uk)

Harry Hemingway (harryh@public-health.ucl.ac.uk)

Version: 7 Date: 9 January 2006

Author's response to reviews:

Dear Editor,

I have amended the paper by including information about conflict of interest. I was not able to access the further reviewers' comments and so have not been able to make these changes. I would be very happy to incorporate the comments if they are sent to me.

Best wishes,

Hannah
