A randomised controlled trial investigating motor skill learning as a function of attentional focus in old age

Dear Editor,

Please find enclosed a copy of the article we would like to offer BMC Geriatrics for review. We would like to submit this work in the category Research Article since we believe the article content to be appropriate for this journal. Recently you asked to resubmitt our manuscript citing a trial registration number as this must be obtained before you can begin peer review of our manuscript. The following registration number has been given to our trial: Current Controlled Trials ISRCTN44627088.

Each of the authors listed has read and concurs with the content in this manuscript. The material within will not be submitted for publication elsewhere.

Thank you very much in advance for your time and consideration.

With best wishes

Sincerely yours

Eling de Bruin, PhD
