Reviewer's report

Title: The Renin-Angiotensin-Aldosterone system in patients with depression compared to controls - a sleep-endocrine study

Version: 4 Date: 1 October 2003

Reviewer: Florian Chapotot

Reviewer's report:

Most of my original criticisms have been answered with cautiousness.

Advice on publication: Accept without revision

Level of interest: A paper of considerable merit and interest in its field

Quality of written English: Acceptable

Declaration of competing interests:

None
