### Reviewer's report:

#### General

It is important that this paper in covering the results of a preliminary study should be published as it should lead to controlled studies in this important field.

-----  
**Major Compulsory Revisions** (that the author must respond to before a decision on publication can be reached)

None

-----  
**Minor Essential Revisions** (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

None, the revisions are acceptable.

-----  
**Discretionary Revisions** (which the author can choose to ignore)

**What next?:** Accept without revision

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
