Reviewer's report

Title: Changes in Claudin tight junction protein distribution patterns in the progression of mouse skin tumorigenesis

Version: 3 Date: 12 September 2007

Reviewer: Zsuzsa Schaff

Reviewer's report:

General
This revised version has certainly added to the quality of the article. All suggested corrections have been taken into consideration. The revised manuscript is now acceptable for publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
There are no further major compulsory revisions to be made.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
No minor essential revisions are necessary.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
