

Reviewer's report

Title: Nephropathic cystinosis associated with cardiomyopathy: A 27-year clinical follow-up

Authors:

Dr Mehul P Dixit (mdixit@peds.arizona.edu)
Ira Grier (iraipna@aol.com)

Version: 2 Date: 25 Aug 2002

Reviewer: Dr Kenneth Jureidini

Level of interest: A paper of considerable general medical or scientific interest

Advice on publication: Accept after discretionary revisions

a. Discretionary revisions

1. Avoidance of use of the first person is preferably avoided and I should prefer this to be altered.
2. Suggested grammatical/punctuation/spelling changes :

Abstract:

surgery instead of surgeries

"myocardium,suggesting" instead of "myocardium pointing towards"

Introduction:

Line 2: ", "after "and"

Line 8: "...cystinosis,which has been cloned..."

Case report: typo in "report"

p 4, line 13: "." instead of ", " after "rejection"

line 18: delete "of"

p5, second to last line: ", " after "cystinosis"

Discussio:

p 7, line 18: delete "in our opinion"

There are other, less important alterations in punctuation that are desirable and should be found by the authors in detailed editing.

Competing interests:

None declared.
