Reviewer's report

Title: Air ions and mood outcomes: A review and meta-analysis

Version: 4 Date: 21 December 2012

Reviewer: Catherine Harmer

Reviewer's report:

The authors have addressed my comments. My only remaining request is that they also cite papers which reveal effects on neurotransmitters to allow a balanced review:

Even though mood is not consistently affected, the reported therapeutic effect in SAD appears relatively robust and the possible biological underpinnings should be mentioned.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
