Version: 6 Date: 7 December 2014

Author's response to reviews: see over
Cover letter:

Changes in abstrakt was made according to your concerns.

Symptomatic therapy proved to be sufficient in subjective symptoms management.

The long term effect of conservative treatment remains questionable.

Changes in the manuscript body:

Tittle: Incidentally Diagnosed of Melorheostosis of upper Limb: case report

In line XX

Bone scintigraphy: Normal level changed to Bone scintigraphy showed normal level

In Conclusion: Sufficient changed to sufficient
