Author's response to reviews: see over
Dear editors,

Please find attached a manuscript entitled “Promoting menstrual health among Persian adolescent girls from low socioeconomic backgrounds: A quasi-experimental study” which we would like considered for publication in the 

This is a quasi-experimental study was to evaluate the effectiveness of the health intervention program.

The new version of manuscript was edited by Edanz editing. Finally, abstract, introduction, methods, result presentation, and discussion were changed.

We look forward to hearing from you.

Yours sincerely,

Zeinab Hamzehgardeshi
