to: Editor BMC Cancer Roma, 23/8/2004

Dear Editor,

Here find enclosed the revised manuscript entitled "Cytotoxic effects of Gemcitabine-loaded liposomes in human poorly differentiated thyroid carcinoma cells", by Marilena Celano, Maria Grazia Calvagno, Stefania Bulotta, Donatella Paolino, Franco Arturi, Domenicoantonio Rotiroti, Sebastiano Filetti, Massimo Fresta and Diego Russo, submitted for publication in BMC Cancer.

The manuscript has been revised according to the formatting changes requested by the Editor. In particular:

- The acknowledgements have been put at their correct place before the References
- The keywords have been deleted in the manuscript
- The Materials and Methods section has been renamed in Methods
- The unnecessary capitalizations have been removed

No changes were requested by the Referees.

Yours sincerely

Prof. Sebastiano Filetti
