Title: Relay model for recruiting alcohol dependent patients in general hospitals- A single-blind pragmatic randomized trial

Authors:

Anne-Sophie Schwarz (asschwarz@health.sdu.dk)
Randi Bilberg (rbilberg@health.sdu.dk)
Lene Bjerregaard (lbjerregaard@health.sdu.dk)
Bent Nielsen (bent.nielsen@rsyd.dk)
Jes Søgaard (jsogaard@cancer.dk)

Version: 2 Date: 11 Feb 2016

Author’s response to reviews:

1. I have emailed the funding confirmations to the requested email. Furthermore, the reference to the Lundbeck Foundation Annual Report has been removed

2. It has now been clarified that the Lundbeck Foundation were responsible for the peer-reviewing.

3. We thank you for informing us of this.

4. Thank you for catching that error. The website has previously contained information on the National Alcohol Treatment Registry (NAB in Danish). The correct website has now been added as a reference on page 7. The referencing style has now been changed to BMC Public Health with an enumerated list and referencing numbers in brackets.
