Comments for Authors:
The manuscript described an interesting case of (Candida glabrata endophthalmitis following penetrating keratoplasty in a patient with negative donor rim culture).

Some questions and comments as follows

1. Did authors investigate for infections in this patient before performing penetrating keratoplasty?

2. Please mention current dose and duration of steroid therapy?

Comments for Editor:
I recommend the suggested minor revisions prior to accepting the manuscript for publication.

Minor essential Revisions.
