Response to Reviewers' comments

Dear Dr Chan,

We thank you for your careful consideration of our manuscript. We appreciate your response and overall positive feedback, and made modifications to improve the manuscript. We have modified the manuscript to improve the presentation of our discussion, therefore providing a more complete context for the research that may be of interest to your readers.

We hope that you will find the revised paper suitable for publication, and we look forward to contributing to your journal. Please do not hesitate to contact us with other questions or concerns regarding the manuscript.

Best regards,

Jianguo Li

Reviewer #1

Can add a paragraph on the discussion part discussing why more immunomodulation therapy was used more in CRCBI

Response: We agree with the Reviewer’s suggestion. We added a paragraph about immunomodulation therapy (page 16-17).
